

YASHASVI VIJ

Full Stack Engineer

Chamba, HP | +91 98163 69329 | yashasvivij01@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Engineer with 1.5+ years of startup experience building scalable web applications, admin dashboards, email systems, and Shopify-integrated features across SaaS and e-commerce platforms.

Both roles concluded due to company-stage decisions — not performance. Proficient in React.js, Next.js, TypeScript, Node.js, and REST APIs with strong focus on performance optimization, responsive UI, and shipping production-ready features in fast-moving environments.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Redux, Responsive Design, Accessibility (WCAG), Cross-Browser Compatibility

Backend & APIs: Node.js, REST APIs, Flask, SendGrid, Shopify APIs, Firecrawl, Lamatic AI, Component Architecture

Tools & Platforms: Git, Docker, Postman, Figma, Nginx, Vercel, Performance Optimization, Agile, Code Reviews

WORK EXPERIENCE

Frontend Engineering Intern

haven

Nov 2025 – Apr 2026 (Remote)

- Built responsive email templates with adaptive dark/light theming, improving deliverability structure and reducing spam classification issues across marketing campaigns.
- Developed end-to-end unsubscribe workflow using SendGrid APIs, ensuring GDPR/CAN-SPAM compliance and eliminating multiple manual operational steps.
- Built internal admin dashboard using Next.js and TypeScript with filtering, sorting, and SSR capabilities — reducing manual operational effort by ~40%.
- Collaborated across frontend implementation, debugging, and feature iteration in a fast-moving early-stage environment.

Product Engineering Intern

Shuru

Jun 2024 – May 2025 (Remote)

- Developed auto-replenishment and SKU management features including bulk SKU upload workflows supporting multiple merchant clients daily.
- Built Shopify-integrated loyalty program with reusable TypeScript UI components and backend REST API integrations across multi-brand deployments.
- Resolved production issues, handled client-reported tickets, and monitored backend logs to maintain platform stability.
- Worked closely with product and engineering stakeholders on feature planning, code reviews, and agile delivery cycles.

PROJECTS

FabLens

Next.js · TypeScript · Lamatic AI · Firecrawl · REST APIs

- AI-powered product analysis platform — scrapes clothing URLs, extracts fabric composition data, and generates environmental impact and skin-safety insights using LLM-based workflows.
- Built with scalable full stack architecture, extensible UI patterns, and AI-assisted data pipelines; expanding toward broader consumer product categories.

Video Streaming Platform

React.js · Redux · Responsive Design

- Streaming platform with dynamic content rendering, reusable component architecture, optimized Redux state management, and cross-device responsive layout.

Interactive Dictionary App

React.js · REST APIs ·

- Responsive dictionary app with persistent search history, accessible UI patterns, and performance-optimized rendering across devices.

EDUCATION

Full Stack Web Development · Newton School, Bengaluru

2022 – 2023

Frontend Development · Masai School, Bengaluru

2021 – 2022

B.Sc. (Hons) Bioinformatics · GGDSD College, Chandigarh

2018 – 2021
